

GRADINIȚA KIDS' WORLD

Educational Offer 2024-2025

WELCOME TO KIDS'WORLD NURSERY SCHOOL

We set this school in Bucharest in an attractive residential area in sector 3, in order to serve the social and educational needs of toddlers and pre-school children and as an alternative to the old-fashioned state owned educational system. We are a non-profit making foundation.

The building has ground floor, 2 floors and attic where we set 4 kindergarten classrooms, bedroom, sports room, messy areas according to British curriculum, medical care, kitchen, 5 bathrooms, after-school zone with lots of rooms for study and relaxation and office, all arranged according to requested standards.

The playground is big, covered with rubber for an increased safety of children, thus allowing a proper progress of the playground play.

CURRICULUM

Kids' World Nursery School operates in English at all times and follows the British Foundation Stage Curriculum for children aged from 2 to 6 years. With this we aim to make learning a fun and challenging experience and recognize the value of play in all the 6 areas of learning:

- Personal, social and emotional development
- Communication, language and literacy
- Mathematical development
- Knowledge and understanding of the world
- Physical development
- Creative development

They enable children to develop key skills such as speaking, listening, concentration, learning to work with others and early numeracy and literacy. (For literacy we embraced the Jolly Phonics system, which is a thorough foundation for reading and writing. It teaches the letter sounds in an enjoyable, multisensory way, and enables children to use them to read and write from the age of 4.)

Our aim is to provide a stimulating, educational environment where children can feel happy, secure and confident. Learning through play we aim to develop each child's skills, knowledge and understanding, to promote learning and to encourage the children to express themselves creatively. We adapt the learning environment and activities to suit the needs and interests of each child. Children work individually with a teacher or in small groups. We encourage them to explore, discover and learn with the support of

GRADINITA KIDS' WORLD

trained teachers who have a very good standard of spoken English, language whose use we encourage at all times.

EXTRA-CURRICULAR ACTIVITIES

We offer the following extra-curricular activities :

Dance Club	Art Club
Robotics	Japanese Culture
Good Manners	Personal Development through Drama
Soroban	Swimming at Alexandreea Spa
Piano (individual)	
Foreign languages clubs like French, German, etc.	

On a separate paper you will be asked to tick the clubs you chose for your child to attend.

AGE RANGE

Kids' World provides education for children from the ages of 18 months to 6 years.

CLASSES

We offer 4 classes with maximum of 8-10 children in each. These are:

2-3s (BABY BEES GROUP)	4-5s (BUTTERFLIES GROUP)
3-4s (CATERPILLARS GROUP)	5-6s (SMARTY SCIENTISTS)

NURSERY SCHEDULE AND FEES:

You can choose between the following schedules:

- 8:00 - 12:00 - Short day
- 8:00 - 14:00 - Normal day
- 8:00 - 16:00 - Long day
- 8:00 - 18:00 - Extended day
- 8:00 - 19:00 - Extra Day

STAFF

At Kids' World we have a ratio of 1-10 (educator - children). In case there are more than 10 children enrolled in one class 2 trained educators will staff.

The auxiliary staff will be responsible with cleaning, helping children when using the toilets, when washing hands and during meals.

GRADINIȚA KIDS' WORLD

COLLECTION OF CHILDREN

In order to avoid delicate circumstances and for your child's safety you will be asked to fill in a list with persons allowed to pick up your child which will remain in his/her personal file. The class teacher will also have a copy of the list.

NUTRITION:

MEALS ARE NOT INCLUDED IN THE MONTHLY FEE. Breakfast, morning snack, lunch and afternoon snack are provided by our catering company depending on your child's schedule.

We have different menus which we alternate according to the season. You will receive them every Thursday afternoon for the following week, and will be posted weekly at the entrance display.

You will also be asked to fill in an allergy form, if your child has any, and please let the school / class teachers know if your child is unable to eat certain foods for religious reasons or others (e.g. food allergies).

Note: Staff will encourage children to eat in any attractive way they can find, depending on each child, but they will not force a child to eat.

Note: Details about your child's meals will be discussed separately with the School Manager.

HEALTH AND SAFETY

HYGIENE

In our school we maintain good practice in hygiene. Children are trained to:

- wash their hands before eating, after going to the toilet or after coming back from outdoor playtimes
- to cover their mouths when coughing and to use tissues to blow and wipe their noses (with help if necessary).

HEALTH CARE

Kids' World Nursery School has its own medical room with a pediatrician who checks all children in the nursery twice a week: Mondays and Fridays

However, we all know that minor infections and illnesses can spread very easily among young children. Please help us stay healthy by keeping your child at home if for any reason, he/she has any of the following:

- Temperature/fever.
- A persistent cough or any signs of a respiratory infection.
- Diarrhea or any signs of an upset stomach.
- If you suspect that your child may be infectious.

GRADINITA KIDS' WORLD

HEALTH RECORDS

All parents are required to complete the medical record for their child on enrollment. We ask parents to update these information annually or in case of any medical condition that may affect a child while in school.

PLAYTIMES

Outdoor play is a valuable part of your child's development. The playground is big, covered with rubber for an increased safety of children, thus allowing a proper progress of the playground play.

All classes have an outdoor playtime at least twice a day, for 20-30 minutes. There are exceptions such as: raining, the temperature outside falls below 0C, windy, blizzard, etc.

COMMUNICATION BETWEEN SCHOOL AND PARENTS

Kids' World Nursery School fosters an "open door" policy towards parents. Communication is the essential key here!

We send messages by email on a daily basis through a "Daily Report" in which we tell parents about the activities that took place towards the day. Every Thursday afternoon, the planning of the following week theme and activities and the menu of the following week are sent to the parents. All the information can also be found on our site's blog: www.kwns.ro and also on our Facebook page. (<https://business.facebook.com/GradinitaLumeaCopiilor>)

RECORD KEEPING AND ASSESSMENT

All Class Teachers contribute to an observation record for each child in their class. These observations help to track a child's progress. A progress report is completed twice a year and this is shared with parents at the Parents Teacher Meetings in January and June. All copies of children's records are then passed on to the next teacher (or next school) at the end of the school year.

BEHAVIOR MANAGEMENT

We work with children to develop self-esteem and self-discipline. We promote kindness, willingness to share and courtesy. In cases of misbehavior teachers will explain why the behavior was unacceptable and help the child understand. Physical punishment is never used or threatened. Behavioral problems will be handled in a positive way with the child's age and level of understanding taken into consideration and with parental involvement where necessary.

GRADINIȚA KIDS' WORLD

FINAL WORD

Hoping that you are convinced that KIDS' WORLD NURSERY SCHOOL is the best choice for your child, for whom any effort is small compared with the greatness that each of us feels when his baby smiles happily, with no mistake in case of a future cooperation, your child will receive the best care and attention from our staff. His/her happiness and progress are our goals. We also aim to ease your life as parents when leaving your child in our school by providing safe and excellent facilities, and also love, respect, trust and care towards your child.

Yours sincerely,

Nicoleta Popescu
General Manager

GRADINIȚA KIDS' WORLD

Kids' World Nursery School Curriculum

Kids' World Nursery School operates in English and follows the British Foundation Stage Curriculum for children aged from 18 months to 7 years. With this we aim to make learning a fun and challenging experience and recognize the value of play. They enable children to develop key skills such as speaking, listening, concentration, learning to work with others or independently and early literacy and numeracy. The British Foundation Stage Curriculum promotes children's development through Early Learning Goals in 6 areas of learning:

Personal, social and emotional development

The children are individually supported in developing confidence, autonomy and self-respect. They are encouraged to work and concentrate independently and also to take part in the life of the nursery, sharing and co-operating with other children and adults.

Through activities, conversations and practical examples, they learn acceptable ways to express their own feelings and to have respect for the feelings of others.

All children are given the opportunity to take responsibility for themselves and for their belongings.

The development of curiosity about their own and other people's lives makes a good starting point for young children to appreciate each other.

Communication, language and literacy

At Kids' World we operate in English at all times. Children learn to use the language through listening, speaking, reading and writing activities.

We encourage the children to listen attentively and to talk about their experiences using a growing vocabulary and with increased fluency.

GRADINIȚA KIDS' WORLD

They listen and respond to stories, songs, nursery rhymes and poems, enjoy making up their own stories and taking part in role-play situations. At the appropriate time reading skills are taught using a wide range of children's books and resources for each child to enjoy.

For literacy we embraced the Jolly Phonics system, which is a thorough foundation for reading and writing. It teaches the letter sounds in an enjoyable, multisensory way, and enables children to use them to read and write from the age of 4.

In their writing children use pictures, symbols, letters and words to communicate meaning and become aware of the different reasons for writing.

Mathematical development

The understanding of mathematics in the nursery comes from using a wide variety of materials and resources. Children learn to sort, match, order, sequence, make patterns, count and later record numbers and become aware of simple number operations such as addition and subtraction.

During activities we introduce and use mathematical concepts such as shape, size, quantity and position to help children reflect on their experiences and eventually solve mathematical problems.

Knowledge and understanding of the world

Natural curiosity equips children to think scientifically. We build on this by providing first hand experiences which enable children to use their senses, make observations, predict and test ideas.

Sand and water play, art, craft and design, cookery, use of outdoor environment and „interst” tables are examples of the resources we use to introduce children to the language and understanding of science and technology.

GRADINIȚA KIDS' WORLD

Physical development

With adult support, children learn to use tools including crayons, pencils, scissors, modeling tools and construction games with increasing control, all these helping them develop their gross and fine motor skills.

Outside, children learn to jump, hop, skip and balance. At Kids' World we provide a wide variety of games or equipment to develop their mobility, co-ordination and awareness of space. Outdoor playtime has a very important role for children physical development.

We also encourage children to establish positive attitudes about eating sensibly, caring for teeth and enjoying a healthy, active way of life.

Creative development

Art, craft and design, music, dance and drama contribute to our creative and aesthetic curriculum. Children can represent ideas in a non-verbal way and begin to develop their own "tastes".

The children use a variety of tools and materials to explore, and with adult support they learn techniques so that they can be used as an effective means of expression. The children have a creative activity every day ranging from singing, movement, dancing to drawing, painting, gluing. They learn about pace, rhythm, harmony and silence, and also to explore and enjoy the natural desire to respond or to create music.

GRADINIȚA KIDS' WORLD

FIRST LETTER TO PARENTS

Motto: A CHILD'S WORK IS HIS PLAY!

Dear parents,

During the time your child spends quality time with us, a lot is going on! He / She is "playing", but that is really hard work!!!

At Kids' World Nursery children:

- ✓ Meet & make friends
- ✓ Learn from others
- ✓ Learn to become independent
- ✓ Learn a second language the same way as they learn the mother language
- ✓ Have cooperative playing experiences
- ✓ Learn to share adults' attention
- ✓ Listen to music
- ✓ Look & listen to books
- ✓ Have creative art experiences
- ✓ Explore how things work
- ✓ Develop and expand their language abilities
- ✓ Learn social skills needed to play games & make friends
- ✓ Build and play with materials/ toys that may not be available at home
- ✓ Compare and contrast different experiences

NOW, THAT'S A FULL DAY!!!
